BEACH PARKING LOT – BEACH STORM DRAIN IMPROVEMENTS

The Emerald Bay Service District (EBSB) has finalized plans to improve the storm drain system at the beach parking lot.

The work will involve replacing the concrete valley gutter in front of the beach area and areas that connect to the concrete valley gutter. In addition, there will be some replacement of the concrete valley gutter adjacent to the tennis court. In addition, the work will also include the replacement of the area in front of Emerald Green (along the beach parking lot). The existing wheel stops will be removed. That area will be paved up to the grass area of Emerald Green. New wheel stops will be installed in front of the new curb and gutter at Emerald Green.

The work will be scheduled in late October.
